New Sewer Estimates Differ From Original

Another sewer line through Arlington would cost the Town some \$1,300,000 according to Clarence I. Stirling, Jr., Engineer Consultant to a Special Commission to the Legislature.

The original estimate by the Arlington Town Engineer, Mr. Roby, was a \$690,000 cost to the Town.

At the same time Mr. Roby estimated that the cost to other communities involved—Lexington, Bedford, Winchester would be \$1,400,000.

Mr. Stirling's estimate of cost to these communities was \$700,000. The original estimates by the Town Engineer were based on the applications of formulas spelled out by the Special Commission to the Legislature.

Mr. Roby stated in his analysis that he believes that either the consultant did not have all the facts or that he was given erroneous data on which to base a study.

The Town Manager will now ask Representative John P. Buckley as to the next step to be taken by the Town.

A Poem

There once was a typist named Jane,
Who decided her job was a pain
She said to herself
If I stay on this shelf
I will probably wind up insane!

So one day she picked up the phone
Called Hood's and made herself known
She came in and then
She was happy again.

She's still here and her troubles
have flown.

If your typing is good like Jane's, why
not call us at CH 2-0600. Ask for Marcia London.

A news story which should be of definite interest to Arlington came out of Brookline this week when it was announced that that community plans to redistrict its precincts.

The elective offices of the 240 present Town Meeting members have been voided and all will have to run again in March when 252 members will be elected.

Tom Doherty, defeated in his quest of a senatorial position in November will be back on the political scene in the future seeking a senatorial seat.

However, at the present time, Doherty has given up aspirations of seeking the Secretary of State post and will lend any support for that post to Joseph Ward of Fitchburg.

Another candidate, defeated in the November election, John Stanton of Arlington, stated this week that he is definitely not going to be a candidate in the local March election.

—And what's happened to the Cambridge shelter for commuters at Harvard square? First it was

understood the City Council of Cambridge said no to a shelter, then that no decision was reached. Now we understand that the Council has turned down the proposed project.

One of the interesting sidelights of this year's political picture in Arlington is that the number of residents seeking Town Meeting spots is less than usual. Could be that many of those who would nominally be running for the Meeting positions are seeking higher Town office instead.

Two candidates for an office have decided definitely how to seek another post. Frank Hurd, originally a candidate for re-election as a selectman is now seeking a Town Clerk post.

Meanwhile, James E. O'Rourke, originally a candidate for Selectman is now seeking a Housing authority post.

—And for clarification—Selectmen, Finance Committee members, members of the school board, may seek office in other departments of the town, but may not hold two positions.

articles stating that our trend toward more riding and less walking is leading to a nation of weak legs and soft feet?

Physical conditioning is a very open and shut subject. You, as a physical specimen, are as strong or weak as your daily activities tend to make you (barring unfortunate outside factors relating to your health). Those working in heavy physical labor are usually strong muscled based on type of work. If heavy lifting is your forte, then your arm muscles are "hard as rocks." If climbing, and continuous walking or running are involved, then the leg muscles are further developed and the feet toughen up in turn.

My average 15 miles per week on the golf course have given me leg muscles, and tough feet that usually are denied a person working indoors all week long. Of this I am happy, as I believe as do many others, that we are getting soft, and this will show up in the weaker legs and feet of generations to come.

Why, even the golfer is taking to caddy mobiles, and will soon perhaps, have a mechanism to swing the club for him.

Dorothy Meehan Announces School Board Candidacy

In announcing her candidacy for School Committee this week Dorothy Kelleher Meehan stated: "I, Dorothy Kelleher Meehan, of 45 Pine street, hereby announce my candidacy for the school committee of Arlington."

"I have been admitted to practice at the Bar of the Commonwealth of Massachusetts, the State of New York, and the Federal Courts of the United States. I am a member of the Maritime Association of the United States and have practiced before the United States District Court for the Southern District of New York for over two years. I am now practicing law locally. I have been a town meeting member for the past four years, and have long participated in civic affairs. I attended the Arlington Public Schools, St. John's, and Boston College. I am married, and have two children."

"I feel American Education is facing a great challenge at this time. We have the problem of federal and state encroachment on local control of education, the dangers of a hysterical race with Russia in the field of science, and, above all, the problem of developing a program of education that will combine the best elements of the theories of traditional education and life adjustment so that each child's needs will be met, but the standard of education raised, not lowered. It is only through meeting and succeeding in strict disciplines that a child's brain develops and it acquires self-respect, the first requirement for a balanced personality and a law-abiding, useful citizen. We have a guidance system in the Arlington Schools, and through this medium it should be possible to determine each child's capabilities, talents, and desires, and so direct them that they may be developed to their fullest measure."

"Scholarship opportunities and their requirements should be made known to all students at the eighth grade level so that they will ever have this incentive before them, and never lag in high school studies because their parents cannot afford to give them higher education. Scholarships should be awarded having taken into consideration financial necessity as well as academic merit. General college requirements should be made known to all students at the eighth grade level, as well as those of any particular institution in which they show interest. All students of sufficient intelligence quotient should be required for college entrance, as well as courses that would train them in the art of learning how to undertake and master any subject, and basic courses in note-taking and library research. Some knowledge of typing should be made available to all."

"A child of some thirteen or fifteen years should not be permitted to while away his time on courses that do not tax his brain or fit him for future study because he cannot realize at that age what his personal situation and desires may be five or ten years later. Neither parents nor taxpayers in general should be forced to pay for a year or more of education after high school to prepare a child for higher education. That must be the function of the secondary school."

"This community should have outstanding schools — the people are paying heavily through local real estate taxes as well as federal and state taxes — they have not stinted on the money necessary to attain excellence. Hence, excellence should be attained, not for the few, but for the great majority."

"A good education is a necessary foundation for a good life, and I would be happy to contribute to the efforts of this community to give that training to all our youth."

J. A. Kowalewski

Joseph A. Kowalewski (Cowell), 18 Melrose street, Arlington, died, January 10.

Funeral services were held from the Waitkus Funeral Home, 197 Webster avenue, Cambridge, Tuesday, at 8:30 a.m. with a requiem high mass at Immaculate Conception (Lithuanian) church at 9 a.m.

RETURN ENVELOPES

Residents are urged by March of Dimes Chairman for Arlington, Robert E. Mahoney to return dimes envelopes as soon as possible.

Mr. and Mrs. Martin J. Keane of Medford, formerly of Arlington, announce the engagement of their daughter, Miss Kathleen, to Mr. John R. Driscoll, son of Mr. and Mrs. Al. Fritz of Somerville. Miss Keane was graduated from Arlington high school and is employed at the Dionnes Beauty Salon, Arlington. Mr. Driscoll is employed as a printer in Medford.

Wedge Seeks Clerk Post

Russell D. Wedge of 31 Heard road has announced his candidacy for the office of Town Clerk. His decision to seek this office is motivated greatly by the personal satisfaction realized in his many civic activities. A former director of the Arlington Boys' Club, former president of the Arlington Little League, former president of the Greater Boston Little League, to name a few, are the affiliations of Mr. Wedge over the past ten years. His influence in this youth work started as a coach, included committee membership by appointment of Governor Furcolo, in a drive to curb juvenile delinquency and continues as a national field representative and tournament director of Little League.

As an associate member of the Arlington Building Board of Appeals, a product of the Arlington schools and of Portia Law School, an insurance claims man of long experience and a licensed insurance broker, Mr. Wedge feels that he would bring to this office, maturity, judgement and responsibility.

Arlington's first volunteer, under the Conscription Act of 1940 brought with it five years of military service, including participation in the invasion of Africa and European campaigns. Mr. Wedge is the son of the late Gregory S. Wedge, for many years an Arlington resident and a Boston Globe employee; he has two brothers, Maurice G., a Loan Officer for The First National Bank of Boston resident and a Boston Globe road, Arlington, and Wilfred B., an officer of the Boston and Main Railroad and now resident in Holden.

His sister, Rita Barnett lives at the family home, at 346 Park ave., Arlington. "Russ" as Mr. Wedge is known to so many Arlington residents, is married to the former Helen M. Fitzgerald of Oakhill Drive, Arlington, and is the father of Paul, Robert and Gregory. As a member of Arlington Council, Knights of Columbus, St. James Holy Name Society, Veterans of Foreign Wars and an aide-de-camp to Governor Furcolo, Mr. Wedge feels that he possesses a wide and well rounded association, helpful to the office which he seeks.

BURNHAM SCORES TWO, AS LOCALS SOLIDIFY HOLD ON GBI LEAGUE LEAD

Arlington high schools G.B.I. hockey team took a giant step toward grabbing the league crown by edging defending champion Melrose at the Boston Arena at a Friday night contest last week by a 3-2 margin.

The locals by their win moved three points ahead of both Melrose and Belmont, tied for second, and four points ahead of third place Stoneham.

Two quick first-period goals by substitute Tom Burnham sent Arlington out into an early lead.

Burnham, who hadn't scored a goal previously this season hit the nets at 2:20 of the first period with Lovering getting the assist. Eight seconds later the Arlington second unit scored again with Burnham beating Glen Crosby a second time with Morse getting credit for the assist this time.

Melrose came back in the second period to tie the score. Ken Palm scored from Morris at 2:45 and

White tallied from Traill and Meehan at 5:16. Melrose, which had lost only one game all season, that to Arlington, seemed on its way and was enjoying a wide territorial margin late in the second stanza.

However, Arlington's big line, which had been stymied throughout the game, broke into the scoring column at the 56 second mark of the third period with Jack Allen scoring the big marker with the assist going to Charlie Chisolm, the leading scorer in Eastern Massachusetts.

Fine goal-tending by Arlington's Clark and an ability of Arlington players to watch Traill's passing rather than concentrating on his scoring potential seemed key to the Arlington victory.

Meanwhile, in other games, Stoneham moved to within a point of second place by walloping Medford 5-0. Belmont, moved back into a second place tie by

beating Rindge Tech by a similar score while, Cambridge Latin scored more than half as many goals in one contest as it had in its previous seven games inhandling Newton a sixth consecutive loss 6-0.

A VITAL POINT

In these days of television and speed and general distraction of the minds of the youth of our community, we should more than ever stress the importance and the value of the printed word to the children of our day.

A paragraph quoted from a survey of the Robbins Library and submitted to the Board of Trustees of the library by John A. Humphrey, Director of the City Library of Springfield, and Philip J. McNiff, Associate Librarian, Harvard College Library, Cambridge, is one that would seem to make much sense.

"Boys and girls, at an early age, should get the public library habit. If the schools provide all kinds of library service—instead of library service limited to school needs—then the children get the idea that schools give library service. This means that when children leave school there is a tendency to stop reading. When school libraries introduce boys and girls to the library habit and make it necessary for them to use the public library and its broader and larger collections, the first serves the latter institution and they both accomplish the all-important ideal of making readers and potentially more intelligent citizens. The relationship between the public library and the school system is one that needs the most careful planning if the two institutions are to discharge their respective responsibilities for the good of the community—not only from the point of view of service but also from economy considerations."

What's Being Said About League's Shopping Survey

Several Arlington officials have commented this week on the shopping survey currently being taken by members of the League of Women Voters. The survey, to include opinions from over 500 family shoppers in Arlington, was planned to help contribute information on shopping habits which might have some bearing on future planning.

"This will be a tremendous contribution," said Town Manager Edward Monahan. "There is no question whatsoever in Arlington concerning the need of improving the tax base. The quickest way to reach a final solution of this vexing municipal problem is a clear determination of what may or may not be found with respect to shopping in the center. The survey will be a great public service."

William A. McMahon, chairman of the Arlington Development Commission stated, "The revitalization of our shopping areas must be accomplished if we are to realize the true worth of this property in taxable income. The results of the survey of the shopping habits of Arlington people to be conducted by the League of Women Voters should prove to be extremely helpful in planning the improvements and changes which must take place in Arlington Center and our other shopping areas. I certainly hope that those townspeople approached will cooperate fully so that the survey will produce meaningful conclusions."

Chief of Police Albert E. Ryan has been consulted in regard to the survey and permission granted to the League.

The Local Affairs Committee of the League of Women Voters hope to compile the facts of the survey as soon after the interviews are completed as possible, and to make available the conclusions drawn from the survey.

Babson Discusses

A Summary

(Exclusive Herald Feature)

Babson Park, Mass. — So many readers of my column have written to me questions about South Africa, that I have selected sixteen of the most important and am answering them here.

(1) POPULATION. The population of Africa is estimated at 135 million. Of this total, about 5 million are Mullatos, about 3 million English and other Europeans, and about 2 million Dutch, known as Afrikaners. This leaves about 125 million Blacks, which speak nearly two hundred different languages. This language barrier prevents the Communists from now getting any hold in Africa.

(2) COST OF LIVING. This is high for all groups. Black labor is very cheap, but it is very inefficient. Most articles, textiles, etc., are imported.

(3) LARGE RETAIL STORES. These are very attractive and well stocked, equal to the best in any American city of similar size. There are probably too many small retailers. The merchants are mostly Jewish, Malayan, and English.

(4) BUILDING. The Blacks live largely in thatched-roofed mud huts, while most of the white-collar people live in very attractive four-story apartments built of brick tile covered with cement.

(5) HOTELS, CHURCHES, AND CLUBS. These are the same as in any American city of similar size, but much more segregated as to race and inheritance.

(6) FARM LAND. This is very high priced, at \$500 an acre and upward, and can be equalled at \$100 an acre in the United States. This high price is due to the fact that agricultural land lies only in the small valleys between the highlands and mountains.

(7) WEATHER. South Africa has its hottest months in January and February; and its coldest in July and August, with practically no freezes, except in the highlands. South Africa is fast becoming a winter resort for Europeans.

(8) RAINFALL. Long periods of drought are followed by terrible floods. Someday the floods will be controlled, but not yet. The weather is fine for citrus, with no freezes and much sunshine. Drought is overcome by irrigation.

(9) BANKS. There are several local banks scattered throughout Africa; but South Africa has only four. Each of these banks has hundreds of branches. I like Barclays Bank the best, but all are equally good. Banks pay 4 1-2 per cent interest on deposits; bank stocks yield about 9 per cent to stockholders. I believe these bank stocks offer the greatest opportunity for growth of any in the world.

(10) LARGE CITIES. There are only a few large cities in Africa; but all are having a marvelous growth. Forty-five years ago Johannesburg had only a thousand people, all living in tents. Today the population of this city is over 600,000, and there are dozens of skyscrapers. My favorite cities are Cape Town, Durban, and Salisbury.

(11) FISHERIES. These are very prosperous, and mostly on the Southwest Coast. Frozen fish and so-called "lobster tails" (crayfish) come into the United States free of duty; but a 45 per cent import duty must be paid on canned fish.

(12) LOCAL INVESTMENTS. When the South African people sell out their mining stocks, they use the profit to build apartment houses for rent. They believe that acreage, business blocks, and apartment houses are the best hedges against inflation.

(13) HIGHWAYS. These are wide and well tarred. Most white-collar workers have automobiles, which are mainly American-made. No oil of commercial grade is now found in Africa. Soft coal exists in great quantities. This is being distilled, and the distillate is being used for gasoline for autos and trucks; the residue is used for tarring the highways.

(14) MINERALS. My reason for visiting Africa was to investigate the diamond, gold, chrome, and copper mines. I was interested only in the richest and longest-lived mines, of which there are not too many. I especially like those whose stocks can be bought by the purchase of American Depositary Receipts and that are listed on the New York Stock Exchange. Too many African mines are short-lived and very speculative.

(15) WATER POWER. Africa leads all continents in undeveloped water power. Three of these possibilities are now being developed. I am especially enthused about the one at the Kariba Gorge on the Zambezi River. This will be three times the size of our Hoover Dam, and has the world's largest man-made lake to supply water in the dry seasons. It will supply power to the copper mines.

(16) WILD BEASTS. Africa has the greatest number of wild beasts now remaining on this earth. There is a huge collection in the Kruger Reservation, 300 miles by 50 miles in area. I was unable to visit this reservation, where they all run wild and have equal opportunity to follow their natural pattern for survival; but Mrs. Babson had the courage to go by herself, with a guide. These wild animals offer a suggestion for world peace—namely, by giving equal opportunities to all creatures. If all men and beasts have sufficient opportunities to eat and to develop, there will be no Communists.

Mahony Seeks Spot On Local School Board

Mr. Fred A. Mahony of 22 Governor road, Arlington, has announced his candidacy for the local School Committee. Mr. Mahony is married and the father of two children, Sharon, age 14, and Mary, age 10. He has been a Town Meeting Member from Precinct 11 from 1956 to the present. During the year 1958, he served as Chairman of the Town Meeting Members in Precinct 11. A Veteran of the Naval Air Corps during World War II, Mr. Mahony is a member of the American Legion Post 39, Arlington. He has been very active in charitable campaigns for many major drives.

In announcing his candidacy for the School Committee, Mr. Mahony stated:

"For the past 20 years, I have been intimately connected with the field of education as a secondary school teacher. I feel that this experience qualifies me to serve the interests of the people of the Town of Arlington as well as a member of their School Committee."

"Education at the present time is probably the most important single factor in any Town's Appropriations. Because of the recent challenge from Russia's scientific achievements, the American people have taken a closer look at their educational system. It is vitally necessary that we place the administration and policy for our school systems in the hands of people who are thoroughly familiar with its problems."

"I believe that I can bring to the School Committee of the Town of Arlington experience that qualifies me to assist in making Arlington's School System second to none in the Commonwealth. This can be attained and would be attained, at the same time, with an eye to economy. Our children deserve the best but it is imperative that our public officials, at the same time, insure that for every dollar that is spent they receive a dollar's worth of value. This I pledge to the people of the Town of Arlington. May I earnestly request in the coming Annual Town Election that the people of Arlington consider all the factors involved and the importance of the office of School Committee. If elected, I will serve them to the best of my ability."

Girl Scouts To Distribute 4,800 Goodwill Bags Here

Arlington Girl Scouts are busy these next two weeks on one of their biggest "Good Turn" projects. The girls, dressed in their cleanest and brightest uniforms, are distributing more than 4,800 Goodwill bags to homes in the town of Arlington.

Under the direction of Mrs. Christopher Nolan, Jr., Program Chairman, 12 Draper avenue, Arlington, the Girl Scouts have adopted the challenging theme for the year of "You Can Count On It—Can She Count on You?"

The first big project is on behalf of the handicapped who are employed at Morgan Memorial Goodwill Industries in Boston.

The Scout Leaders and the Girls are asking Arlington householders to fill the bag with repairable

clothing and merchandise, and pack aside any other items of furniture and household articles, and then call for the Goodwill truck. The telephone number is HUbbard 2-1894.

Goodwill Industries in Boston employs 325 handicapped persons, regardless of race, creed, or color each week. Many of them, whose recovering has been doubted by physicians, have learned a trade in the private business and industry.

The Morgan Memorial Goodwill Industries is the oldest in the United States. The idea of aiding the handicapped has spread until similar Goodwill Industries have been established in 120 U. S. cities and 17 foreign lands.

Mrs. Nolan, Jr., said, "We are trying to encourage our girls in a constructive service project. Scout leaders pointed out that the filled goodwill bags may also be placed in the collection box at the Arlington Public Market's parking lot.

The Girl Scouts who volunteer for this public service to the community and the handicapped," said Mrs. Nolan, Jr., will have an opportunity later to take a trip to the drawing Goodwill Industries for a "Come and See Tour."

She also added, "The Senior Scouts of Troop 110: Alyce Arnaud, Nancy Antworth, Janice Banks, Donna Dixon, Linda Elzing, Betty Lewis, Joyce Litchfield, Linda MacGregor, Carol Poirier, Louise Shumaker, Marylees Sute, and Carol Wilson, under the leadership of Mrs. B. E. Ba. and Mrs. Charles Antworth, have volunteered to assist the Program Committee in this worthwhile service."

Walsh Announces Candidacy For Assessor Post

Robert B. Walsh, 89 Dow avenue, formerly of 63 Marathon st., a life long resident of Arlington, has announced his candidacy for the office of Assessor.

A product of Arlington schools, Beryl preparatory school, and Calvin Coolidge College, Mr. Walsh is employed in the Claims Department of a national insurance company and is a licensed insurance broker in partnership with his brother, Thomas J. Walsh, also of Arlington.

Mr. Walsh is married to the former Adele C. MacLellan and they have three children.

Active in local affairs, Walsh has served as Town Meeting Member from Precinct 1 and Precinct 2 and is an elected member of the Arlington Democratic Town Committee. Interested in youth, Bob Walsh is an officer in the Arlington Little League Program and was formerly an officer in the Civil Air Patrol in Arlington. He is a member of the Arlington Golf and Country Club, and Arlington Lodge of Elks.

A member of the Peter Walsh family of Arlington, the thirty-two year old candidate was one of five brothers to serve in the U. S. Army during World War II. Edward and David Walsh, his brothers, are local businessmen.

"I sincerely believe that my education, business experience, progressiveness and integrity permit me to offer the voters of Arlington constructive and impartial representation in the office of Assessor," Walsh said.

Assistant Clerk To Seek Town Clerk Office

Assistant Town Clerk Ann Mahon announced this week that she will be a candidate for Town Clerk at the coming Annual Town Election.

Miss Mahon has been employed in the Office of the Town Clerk for over six years, the last five years as Assistant Town Clerk by appointment of the late James J. Golden. In this capacity she has had actual experience in all phases of the work of the Town Clerk and at the present time is performing all the duties and has all the powers of the Town Clerk due to the death of Mr. Golden.

Miss Mahon has been a lifelong resident of Arlington and is a graduate of Arlington Public Schools and Hickox Secretarial School.

In announcing her candidacy, Miss Mahon stated, "The Office of the Town Clerk is the one used in processing the greatest volume of municipal business. It is the source of information for the citizen in his dealings with local government. The Town Clerk is responsible for the recording of vital statistics and all documents affecting the interests of the Town. In addition, the Town Clerk issues various types of licenses, prepares materials for elections and town meetings, and supervises the work of election officers. The Town Clerk also serves as ex-officio member and Clerk of the Board of Registrars of Voters, and as such supervises the true listing of persons, the revision and correction of the Town's Voting List each year and participates in the registration of voters. It is important, therefore, that the person elected to the office of Town Clerk be able to administer the affairs of this office with a high degree of efficiency.

"In view of the foregoing, and the fact that I am thoroughly familiar with every detail of the work required of the Town Clerk and have the ability to maintain the high standards now existing in this office, I feel that I am the most qualified candidate."

Selectman Hurd Announces Candidacy For Town Clerk

FRANKLIN W. HURD
Selectman Franklin W. Hurd, an Arlington town official since 1957 and a member of a family long prominent in Arlington, fraternal, civic and public service circles, yesterday formally announced his candidacy for the office of Town Clerk.

In a statement issued to the press, Selectman Hurd stated: "Out of respect to the late Town Clerk James F. Golden and his beloved family, I purposely withheld my announcement until today that I would be a candidate for the office held for years by such a conscientious, faithful and sincere public servant—for Town Clerk James J. Golden was a man I will always be proud to call my friend.

"At the urging of many of his friends and mine, I have entered the campaign for the office of Town Clerk today. And, when elected, I will strive to bring to that office the same high type of public service so long associated with the name of James J. Golden whose untimely passing will always be remembered by the electorate of Arlington."

Hurd, a World War II veteran and father of two children, pointed out that his experience as a town official in many capacities has given him excellent qualifications and background for the position of Town Clerk.

"I have rendered efficient service to the people of Arlington as a member and chairman of a three-man elective Board of Park Commissioners; member and chairman of a five-man elective Board of Selectmen; member and chairman of a five-man elective Board of Public Works; and member and chairman of a five-man elective Board of Survey.

"Many Arlington residents know that I have always advocated an 'open' Board of Selectmen meeting so that each and every taxpayer would be afforded an opportunity to know exactly where his or her tax dollar was to be spent on town finances.

"I have also served Arlington as a member of the Metropolitan Transit Authority's Advisory Board and as an ex-officio member of the Arlington Board of Public Welfare.

"While serving as a public official, my duties brought me into every phase which confronts municipal government. I have been closely associated with the Town Manager in the administration and expenditure of an annual budget of some \$5,000,000 and have a personal view of every problem that is affiliated with the town of Arlington.
